Dear Prem,

We are pleased to inform you that your performance appraisal for the year 2018-19 has been made based on your achievements of KRA wherever applicable and considering your job tracking and DSR and Performance Appraisal Form. You may be aware of the landmark judgement of Supreme Court, wherein it has been held that contribution to Provident Fund should be based on not only Basic Salary but all the salary excluding HRA and any other incentives, commission, bonus etc. Resultantly and undoubtedly, it is the good measure towards the social security and planning towards the long term aspects of savings and security for future, however it will result into reduction in net pay, since employer's contribution will be considered in CTC, whereas more deduction on account of employee's contribution to PF will result into reduction in net pay. This aspect also was considered and therefore, there was absolute need for restructuring of existing salary structure.

Similarly, we have taken the opportunity to increase the basic so that social security for future is assured and it will have the positive long-term impact for individual for getting the more retirement benefit including bonus, gratuity, PF contribution, pension and last but not the least, leave encashment. In view of the same, though the company has taken overall burden of additional employee cost to the company and decided the pay structure, which includes your appraisals and all other aspects. We have tried to ensure your CTC (cost to the company) has increased and net pay is at least protected.
