## CCTV Camera Surveillance Report

In the modern era, ensuring the safety and security of educational institutions has become paramount. LBT College of Arts, Commerce, and Science, situated in Talegaon Dighe, Tal-Sangamner, Dist.-Ahmednagar, recognizes this necessity and has implemented a comprehensive CCTV camera surveillance system across its campus. This report aims to provide an overview of the current surveillance infrastructure, assess its effectiveness, and suggest potential improvements to enhance the security measures in place.

The primary objective of installing CCTV cameras is to create a secure environment for students, faculty, and staff by deterring potential criminal activities, monitoring campus activities, and providing valuable evidence in case of any untoward incidents. The surveillance system covers key areas such as entry and exit points, academic buildings, libraries, laboratories, common areas, and parking lots, ensuring a broad and thorough oversight of the campus.

This report will detail the locations and specifications of the installed cameras, analyse the coverage and quality of the surveillance footage, and evaluate the response protocols in place for security breaches. Additionally, it will address any gaps identified in the current system and propose enhancements to bolster the overall safety of the college community.

By leveraging advanced surveillance technology, LBT College of Arts, Commerce, and Science aims to uphold a safe and conducive learning environment, thereby fostering a sense of security and well-being among its members.
